

Technical Data Sheet

Product Code 85gm Nylon Peel Ply

Product Description Nylon peel-ply fabric - 85gms/sqM
Widths available:-
25mm, 50mm, 75mm, 100mm, 150mm, 200mm, 275mm, 300mm,
500mm, 750mm, 1m, 1.25m, 1.50m
Roll length 100 metres

General Description A high tenacity, nylon yarn release fabric. The fabric is scoured and heat set to remove any impurities from the weaving process. Releases from most commercial resin systems. Imparts the fabric weave pattern onto the composite component surface upon removal, where a painted finish or secondary bond is required.

Properties

Colour: White with red pin-stripe

Fabric construction: 16.5 x 17 plain weave / cm construction

Warp yarn: 280 decitex HT nylon 6.6

Weft yarn: 280 decitex HT nylon 6.6

Material weight: 85gms/sqM

Maximum usage temperature: 200°C

Note: Not recommended for use with phenolic resins / prepregs due to the natural affinity between phenols and polyamides.

IMPORTANT INFORMATION:

The information cited is in good faith and has been established from sources held to be secure and reliable. The values listed are typical properties and are not intended to be used as specifications for defined applications. Users must determine the product suitability for the end use application and assume all risks and liabilities
